

# Accessibility Statement

## Committed to Accessibility

At Ossia Music Therapy, we are committed to providing an accessible and inclusive experience for all visitors. The Sing for Speech eProgram was developed with accessibility at top priority.

## How We Support Accessibility

We use industry-standard techniques to improve usability for:

- People who use screen readers or keyboard-only navigation
- Visitors with low vision, color blindness, or other visual differences
- Individuals who are deaf or hard of hearing
- Users with learning or cognitive differences and older adults less versed in digital interaction

Accessibility is an ongoing process. We continually test and refine our website to improve usability. Some third-party content or integrations may be outside our direct control, but we work to ensure accessibility wherever feasible. Our goal is to meet or exceed the Web Content Accessibility Guidelines (WCAG) 2.1 Level AA wherever possible.

## Feedback & Support

We welcome your feedback as we continue improving accessibility. If you encounter a barrier or have a suggestion, please email [info@ossiamusictherapy.com](mailto:info@ossiamusictherapy.com). We take all input seriously and are committed to making our resources usable for everyone.
